REPORTS VS ANALYTICS

Reporting	Analytics
Provides data	Provides answers
Provides what is asked for	Provides what is needed
Is typically standardized	Is typically customized
Is fairly inflexible	Is extremely flexible

BLUEVOLT REPORTS (MOST COMMON)

BlueVolt LMS Report Type	Information Provided
Course Enrollment Totals	Run On-Demand or Schedule reports for enrollments/completions of users in courses. Filter by: Dates, Groups, Courses, Categories, & User Profile Information
Training Track Progress Report	Run On-Demand or Schedule reports for enrollments/completions and training track progress percentage for users. Filter by: Dates, Groups, Training Track & Percentage Complete
Transcripts	View and Print a transcript includes all enrollments, completions, scores and course module status for a specific user.
University Course Hierarchy	Download a spreadsheet of courses or training tracks metadata such as date created & updated; course type, length, status & category; and number of enrollments and \$ BlueBucks earned per course.

BLUEVOLT DASHBOARDS (LEGACY)

Dashboard Type	Questions Answered
University	What month had the lowest or highest course enrollments? What's the average enrollment number per user? Which customer consumes the most shared courses?
Course	What month had the highest enrollments for a specific course? How are completion numbers comparing to enrollment numbers each month? What's the average rating for this course?
Category	What month had the lowest enrollments for this category of courses?
Group	How do enrollment numbers compare to completion numbers for this group? How does the enrollment average for the group compare to the university enrollment average? What month had the lowest enrollments for this group?

BLUEVOLT DASHBOARDS (BETA)

Widget Type	Questions Answered
Performance Summary	Overall “health” of university What is the completion rate for enrollments in my university? What is the total number of course hours completed?
Active Courses/Users	How many courses or users are currently “active”? How many courses or users are new in the selected time frame?
Top Enrollments	What are my top enrollments by group, category or course?
Future dashboard development... coming soon!	

REPORTING API Q & A
